Professional Summary

Detail-oriented QA Engineer with hands-on experience in functional, regression, API, and performance testing of web-based enterprise applications. Skilled in designing and executing test cases, identifying defects, and collaborating closely with cross-functional teams to ensure high-quality product delivery. Proficient in tools such as JMeter, Jira, and API testing frameworks, with a strong understanding of SDLC, STLC, and Agile methodologies. Known for analytical thinking, problem-solving skills, and a commitment to improving application reliability and user experience.

Technical Skills

- Languages & Tools: Java, JavaScript, Selenium, Cypress, Appium, TestNG.
- Frameworks: Page Object Model (POM), BDD, TDD.
- Others: REST Assured, Postman, Git, Jenkins, CI/CD, Jira

Education

Sister Nivedita University – B.Tech (July 2018 – August 2022)

Experience

QA | Aerchain

January 2025 - Present

- Worked as a Manual Tester, Automation Engineer, and Product QA, contributing across the QA lifecycle in an agile environment.
- Developed and executed manual and automated test cases using Cypress web apps.
- Using Appium to Automated Mobile App.
- Collaborated with Product Managers to ensure clarity in requirements and seamless client handovers.
- Took ownership of UAT and post-release support for enterprise implementations.
- Delivered QA solutions for large-scale clients like:
 - Reliance Industries
 - National Stock Exchange (NSE)
 - Hindustan Unilever Limited (HUL)
- Conducted handover sessions and product walkthrough for client QA and IT teams.

QA Trainee | Masai School

May 2024 – December 2024

- Completed intensive training in manual testing, automation testing, and full-cycle project QA.
- Created test plans, wrote scenarios, executed test cases, and logged bugs across multiple projects.
- Hands-on experience with Cypress, Selenium, REST Assured, and Appium.

Certifications

- B.Tech Provisional Certificate – Sister Nivedita University
